

*From the purest tin,
prestigious capsules
for your precious wines...*

Main Features

Body of the Capsule:

Raw Material:

- 99,9% pure tin having minimal residues of lead equal to 100 parts for million; fuse, laminated and molded by deep drawing in our production facilities to guarantee a total control of the raw material.

Colors:

- From our catalogue or on specific customer request (minimum quantity to define);
- Available in the finishes: satinized, glossy, mat or pearly.

Printing and customization:

- Paint-spraying of the background, up to 2 colors (with varnishes based on water and nitro);
- Serigraphic printing, up to 3 colors besides the background color.

Printing and customization:

- Serigraphic printing, up to 1 color besides the background color;
- Blind embossing;
- Colored in relief (embossing) by Inkjet printing.

Optionals

Optionals:

- Tear off tab with double perforation line and tab made directly on the capsule material (available on specific dimensions).

Dimensions

- Diameter: from 27,5mm to 47mm;
- Length: from 35mm to 60mm;
- Tapering: it may vary according to diameter and length.

Use and fitting

- Over the cork closure of first-rate wine bottles, with automatic and/or manual fitting with subsequent spinning.
- Packaging in cartons containing about 2.000 pieces (quantity may vary according to capsules size) in separated sticks having a variable distance according to diameters and lengths, placed side by side and in separated levels; cartons are palletized and protected with stretch film.
