

OUR HISTORY

**MONDIAL CAPSULE:  
QUALITY WITHOUT  
COMPROMISES,  
FOR MORE THAN 30 YEARS.**

Made in Italy capsules and wirehoods to  
better enhance your bottles.

## OUR HISTORY

### A FAMILY STORY

A group of capable and visionary people. A family with a century of experience in the oenological sector. An Italian story spanning over 30 years.

We have been active the industrial area of Alta Gallura, in Sardinia, since 1989 and we are today one of the most important national and international companies in the production of capsules and wirehoods.

### RESEARCH AND INNOVATIVE SPIRIT

The propensity for development and research together with the use of innovative materials have allowed us to respond promptly to the demands and needs of the market permitting us to become a benchmark for the sector. We make constant investments in new machinery and in our mechanical workshop to date with the needs of the market and guarantee innovation and maximum quality for our products.

## OUR HISTORY

### A UNIQUE AND COMPLETE OFFER

From large productions, linked to the industrial world, to smaller requests, dedicated to artisanal productions, we offer solutions suitable for every need. Our product portfolio includes not only the classic capsules in PVC and polylaminate, but also the precious tin capsules.

### AN INTERNATIONAL APPROACH

Thanks to our approach and the quality of our products, we earned the trust of a large slice of the market, not only in Italy but also abroad: from Veneto to Sardinia, from Friuli to Sicily, our capsules have received a large degree of agreement and have been delivered in Germany, USA, Australia, India and China.

#### OUR HISTORY

## PRINTING AND COUPLING DEPARTMENT

For the realization of our products we do not rely on any external company, each material is assembled directly at our facility thanks to our technological systems and to our skilled technicians. We have recently purchased new printing machines, new forming machines for the manufacturing of different types of capsules and materials, a mixing station and a recovery plant for the solvents used for the varnishes. All this not only to always be competitive, but also pursue another of our main goals, namely a sustainable development.

SUSTAINABLE PRODUCTION

## SUSTAINABLE PROJECTS

## **EFFICIENCY OF LIGHTING SYSTEMS**

**-70%**

**of consumption**

**500**  
**TONS OF CO<sup>2</sup> SAVED**

## **SAFETY AND HEALTH IN THE WORKPLACE**

## **CLEAN AND RENEWABLE ENERGY**

**Biomass boiler for  
1,5 MW of energy**

**Photovoltaic plant for  
1 MW of energy**

## **SUSTAINABLE BUSINESS DEVELOPMENT AND CIRCULAR ECONOMY**

## **PROTECTION OF HUMAN RESOURCES**

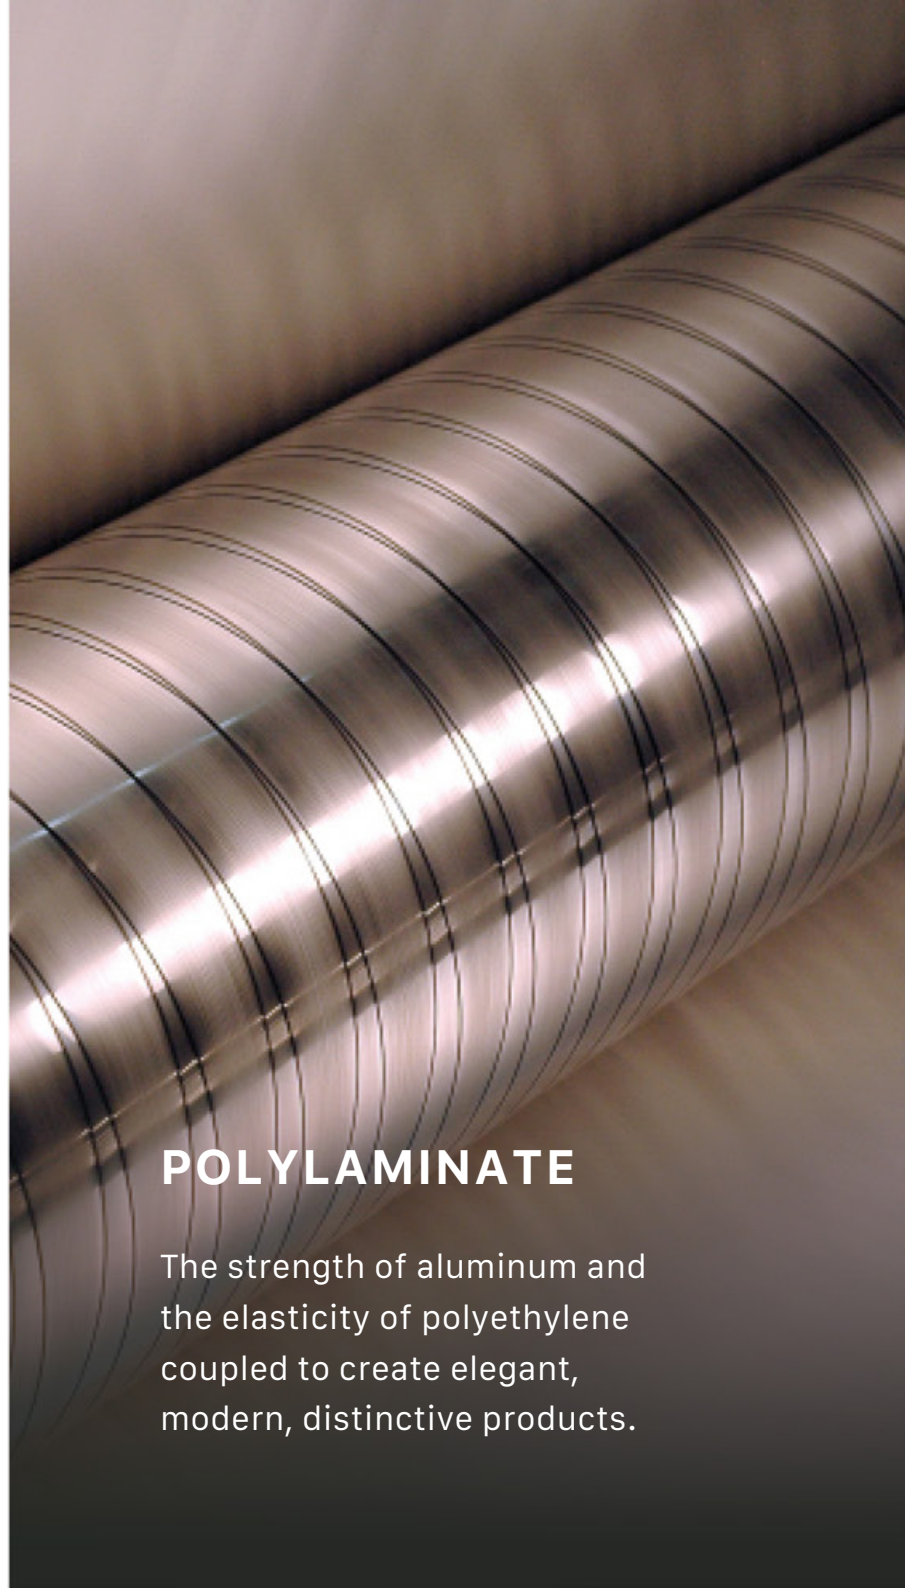

## THE MATERIALS

### TIN

From the best qualities of metal, a resistant product capable of perfectly fit to bottleneck.

### POLYLAMINATE

The strength of aluminum and the elasticity of polyethylene coupled to create elegant, modern, distinctive products.

### PVC

The optimal solution to find the right balance between quality, aesthetics and cost control.

CAPSULES FOR STILL WINE

PVSEAL  
POLIWINE  
TINLUX

## CAPSULES FOR STILL WINE

# PVSEAL, OUR SEAL

The PVSEAL capsules are made of heat-shrinkable PVC, designed to answer to every kind of need; featured by great elasticity and sealing capacity.

Thanks to its modern and highly technological equipment, PVSEAL adapts perfectly to the most modern and fastest bottling lines and machineries.

Customizable ink and hot foil printing allow to match all the other bottle packaging elements creating a unique, fully customized identity.

MATERIAL THICKNESS	75 µ
BACKGROUND COLOUR	rotogravure or flexographic painting with metallic, glossy or matt finish, inside and outside
PRINTING	rotogravure, flexography, hot foil
OPTIONAL	single dotted line for easy opening, horizontal tear tab with or without dotted line and colored tear tab, UV ink or hot printing orientation spot.

#### CAPSULES FOR STILL WINE

## POLIWINE, THE PERFECT CLOSURE

POLIWINE capsules are made of poly laminate, a material that makes them extremely flexible, suitable and practical. Perfect for any type of bottle and adequate for any need, they are the ideal capsules for those products whose distinctive feature is their packaging. Thanks to their extraordinary elasticity and ductility, they decorate every bottle model respecting the productivity requirements of every bottling plant.

MATERIAL THICKNESS	130 / 150 $\mu$
BACKGROUND COLOUR	rotogravure or flexographic painting with metallic, glossy or matt finish, inside and outside
PRINTING	satin, glossy, opaque, pearly
EMBOSS	blind or colored embossing on the top
OPTIONAL	tear tab with double line of carvings, tear tab obtained from the material itself, UV ink or hot printing orientation spot, continuous or discontinuous spacer ring

CAPSULES FOR STILL WINE

## TINLUX, LUXURY TOUCH

Made out of tin, the TINLUX capsules are varnished one by one with a jet of spray paint, the excellence of the Italian craftsmanship applied to an industrial production. Capable of covering perfectly any bottleneck, these capsules can be completely decorated and customized to obtain a modern, original and unique closure.

MATERIAL	98% pure tin
PRIMER COLOR	Single spray paint with satin, gloss, matt or pearly finish
PRINTING	screen printing
EMBOSS	blind or colored embossing on the top
OPTIONAL	on certain sizes, tear tab with double line of carvings with tear tab obtained from the material itself

SPARKLING HOODS

POLISPARK

## SPARKLING HOODS

# POLISPARK, SHINING LIGHT

In aluminum or polylaminate, POLISPARK hoods are designed to offer the best closure for sparkling wines. The possibility to customize dimensions, colours and finishes makes POLISPARK a versatile and eclectic capsule, to better highlight the personality and uniqueness of each bubble.

MATERIAL THICKNESS	65, 75, 95, 110 µ
BACKGROUND COLOUR	gravure or flexography varnish with satin, glossy, matt or pearly finish
PRINTING	rotogravure, flexography, hot foil
TEXTURE	standard or customized pebbling and textures
EMBOSS	embossing on the top and on the blind or coloured skirt
OPTIONAL	single or double dotted line for easy opening; aeration holes; fluting; horizontal tear tab with pvc or coloured aluminum tab; 'butterfly' tear tab; opening strip with double line of carvings, with tear tab obtained from the material itself; medallion; UV ink or hot printing orientation spot

CAPSULES FOR SPIRITS

POLSPIRITS

CAPSULES FOR SPIRITS

# POLSPIRITS, THE SPIRIT CLOSURE

POLSPIRITS capsules are specifically designed for the world of spirits, designed to emphasize the character and the soul of the bottled product. Thanks to years of research, we have poured style, precision, attention to detail and to every single characteristic into the creation of these capsules, to develop highly customizable products in terms of colours, shapes and finishes.

MATERIAL THICKNESS	130 / 150 μ
BACKGROUND COLOUR	rotogravure or flexographic painting with metallic, glossy or matt finish, inside and outside
PRINTING	satin, glossy, matt, pearly
EMBOSS	dry or coloured relief on the top
OPTIONAL	tear tab with double line of carvings, with tear tab obtained from the material itself, UV ink or hot printing orientation spot, continuous or discontinuous spacer ring

WIREHOODS

# WIREHOODS FOR SPARKLING WINE

## WIREHOODS

# WIREHOODS, PERFECT FOR YOUR BUBBLES

Indispensable element for the correct corking of sparkling wines, the wirehood combines technique and aesthetics: besides anchoring the cork to the bottleneck and to meet the evolution of the form to guarantee the perfect gas seal, the cages also perform an important decorative function, helping to define the identity of the sparkling wine they protect. The wirehoods can be tailored choosing size, colour and finishes.

WIRE COLOUR	galvanized or with thermal varnishing
WIRE MATERIAL	iron, thickness 1 mm
TOP MATERIAL	tin plate, natural or coloured
TOP COLOUR AND CUSTOMIZATION	lithographic or digital printing
